Benjamín Peyraga

Programmer Analyst · Full Stack Developer

Programmer analyst and Full Stack developer. I improve and build systems for companies and, through my venture **peycode**, I take client projects end to end: websites, management systems, mobile apps and integrations with WhatsApp, AI and third-party services. I work with AI every day (mainly Claude), focused on maintainable code and business results.

EXPERIENCE

Grupo Euroamerica
09/2026 – Present

Programmer Analyst

- Analysis, improvement and evolution of the group's internal systems.
- New features and custom solutions for business needs.
- From requirements gathering with users to production; process optimization and automation.

peycode · own venture
2026 – Present

Founder & Full Stack Developer

- 8 client projects: discovery, proposal, staged development, launch and support.
- Construction management app (offline-capable PWA): expenses, VAT and profitability, an AI assistant with 18 tools and invoice reading.
- Self-updating podcast site: detects new YouTube episodes and summarizes them with Claude (13 episodes, ~28 h, 104 chapters).
- Corporate and e-commerce websites and landing pages; in-house CRM with 2FA; live demos of an ERP, point of sale and online store.

Estudio Contable Tuculet
06/2026 – 09/2026

Developer / IT

- Built the firm's management system from scratch: a 450+ endpoint API over 100 tables, 138 per-user permissions and 1,000+ automated checks.
- 9 integrations (ARCA tax-agency web services, ARBA, WhatsApp Cloud API, Gmail, Claude) and 4 background jobs. The firm is now a peycode client and I keep improving it.

Alephoo
10/2025 – 04/2026

Ecosystem Software Developer

- New features and module integration for the Salutte2 ecosystem (PHP, Doctrine, Vue.js, SQL).
- Analysis of recurring incidents, bug fixing and optimization of applications and databases.

No Country
08/2024 – 12/2024

Backend Developer

- 3 job simulations in cross-functional Scrum teams, covering the full development cycle.

Toyota Argentina S.A.
08/2021 – 05/2024

Production Team Member · Paint Shop

- Continuous improvement with Kaizen, process optimization and quality control.

LANGUAGES

Spanish: native. **English:** intermediate (B1), spoken and written.
